ATTORNEYS FOR BOTH SIDES WRANGLE OVER EVIDENCE SUBMITTED

Jury is Excused Several Times While Argument is Made—Much of Questioning Concerned Deposit of \$3,000,000 with Dunlap, Russel & Co., by Secretary Emmerson

(By The Associated Press)
WAUKEGAN, Ill., May 17.—The clashes between counsel for Governor Small and the prosecution this afternoon intensified an otherwise dull day in the trial of the governor on charges of conspiracy to defraud the state of interest earnings on public funds during his term as state treasurer and that of his successor, Fred E. Sterling, now lieutenant governor. Three clashes before Judge Edwards, prosecution and defense shared equally in victories. One motion from each side to exclude evidence was sustained. Harry C. Luehrs, assistant state treasurer under Small and Sterling and Small's immediate predecessor, Andrew Russel, now state auditor, was excused from the stand after three days direct and cross-examination. Toward the end Mr. Luehrs, worn by his long siege, grew irritated at the impatience of the attorneys who also were nettled and on edge as a result of their heated argument. The jury was excused twice in rapid succession, while opposing counsel presented their arguments over the admission of evidence. When Luehrs was excused the prosecution called Edward Troubaugh, warrant clerk in the treasurer's office.

ARMY OF 184,000 MEN AGREED UPON BY SUB COMMITTEE

Officer Strength Fixed
at Approximately
12,530 Men

(By The Associated Press)
WASHINGTON, May 17.—An army of 184,000 men with an average officer strength for next year of approximately 12,530 was agreed upon today by the senate appropriations sub-committee which has charge of the measure. The sub-committee draft of the war appropriations bill which has yet to be acted upon by the full committee proposes increases of 25,000 in the enlisted personnel and about 1500 in officers over the house provision. The officer strength is predicated upon the bill suggested by General Pershing and his proposals as to methods of cutting the present number of officers were accepted by the sub-committee in principle. Although the size agreed upon by the sub-committee represents a cut of 10,000 from the strength asked for by the war department its acceptance by the sub-committee with, it was understood only one vote against it was regarded as forecasting its acceptance by the full appropriations committee and probably its passage by the senate. The committee was unable to determine the cost of the service under the size of the army which it decided. The present pay rate expires automatically June 30 and if no other provision is made the pay schedule of 1908 will go into effect but a bill for a new basis of pay has passed the house and awaits action in the senate. The exact appropriation requested to comply with that bill has not been estimated for the 140,000 army. This figure is only about 1,800 below the actual growth of the army on April 1.

SELECT THE HAGUE FOR DISCUSSION OF RUSSIAN PROBLEM

No Chance of American Recognition of Russian Soviet

(By The Associated Press)
GENOA, May 17.—The Hague has been definitely selected as the meeting place for the experts who will further examine the Russian problem it was announced today. Arrangements for The Hague conference in June were practically completed with today's acceptance by the Russians of the proposals submitted to them which have been amended to provide that a true between the various powers will continue for a maximum of eight months. Any question of the recognition by the United States of the Russian soviet government lies beyond the time when restoration of productivity in Russia shall have been set in motion by that country, according to an authoritative and plainly spoken outline of the attitude of the American government obtained today. Refusal to participate both in the Genoa conference and in the proposed commission consideration of the Russian affairs at The Hague it was added it was based on the conviction that such a restoration could not be hoped for under the terms outlined in the Russian memorandum of May 11 at Genoa. Meantime, it was explained the United States is ready to embark with other powers on any purely scientific investigation of conditions in Russia with a view to recommendations as to steps necessary for the commercial, financial and industrial revival of that country. But it will have no part in any such deliberations which even imply a recognition of the soviet regime and would thus tend to "perpetuate delusions" among the Russian people. In the American view of the Russian Genoa memorandum from which it appeared the proposal for the sessions at The Hague was an off shoot, would have exactly that effect in Russia. The memorandum referred to by Mr. Hughes in declining the invitation to The Hague stands as an "impossible barrier" to the establishment of any relations with Russia, it was said.

Must Dispel Delusion. If it was in the minds of the Russian delegates that loans and other forms of credit might be established in the United States without there first having been set up within Russia such conditions as would warrant investments there on a sound, economic basis, they are laboring under a complete delusion and no good purpose would be served if the American views by entering upon discussions at The Hague which never could reach a happy issue while the attitude indicated in the Russian memorandum remains unchanged. Administration officials generally are wholly confident that the American people never would approve recognition of the soviet regime and indicate their belief that the assembled delegates at Genoa should by now fully understand the fixed nature of the American policy of standing wholly aloof from any international arrangement that might have the appearance of moving toward such recognition.

It was disclosed today that an original French suggestion from Genoa seeking to draw out an expression from Washington as to the attitude toward what was construed here to be a proposed purely economic investigation of Russian affairs by a joint international commission have met with a wholly sympathetic reply although no specific acceptance was sent.

MAIL ORDER SALES REFLECT HIGHER PRICES
CHICAGO, May 17.—Advances in the prices of grain and cotton are being reflected by an increase of mail order sales by Sears, Roebuck & Company, which so far in May, according to figures made public today show a gain of about 6 percent as compared with the corresponding period last year. This is the first increase in the company's business since June 1920.

PHILADELPHIA, May 17.—Returns from all but 426 districts in the state in yesterday's primary gave Gifford Pinchot a lead over Attorney General Alter for the Republican gubernatorial nomination of 7,639. The vote from the 7,639 districts heard from was: Pinchot 495,442. Alter, 497,603.

Question of Interest Paid
After another long argument Judge Edwards said: "I am not inclined to let you go back 8 or 10 years to show the creation of this fund. It seems to me it is proper to put the question as to whether or not any money was received as interest on this fund if the witness knows." Upon cross-examination Mr. Luehrs declared he had no recollection of Dunlap, Russel & Co., paying any interest on the \$3,000,000 in question. "Now that account is represented" (Continued on Page Four.)

WILL TRY TO GET I. W. W. MEN OUT OF PENITENTIARY

Jurors Make Affidavits Stating Belief in Their Innocence

(By The Associated Press)
SEATTLE, Wash., May 17.—A joint affidavit setting forth the belief of two jurors in the case that seven alleged Industrial Workers of the World, convicted of second degree murder in connection with the slaying of Warren O. Grimm during an Armistice Day parade at Centralia, Washington, in 1919, were innocent may be made the basis of an appeal for pardons for the seven men, it was announced at the legal bureau of the Seattle Central Labor Council today. The seven men are now serving sentences of from 25 to 40 years in the state penitentiary at Walla Walla. Two others were acquitted. The affidavit declares that the two jurors, believing that "in the face of the hysteria that then existed the event of a divided jury and a new trial innocent men might have been hung deemed it better to have a second degree murder against seven and acquit for two, thus leaving the two free to work for the release of the others."

Attorney Says It Won't Work. Centralia, Wash., May 17.—The affidavit signed by W. L. Inman and E. E. Switzer, two of the jurors who tried seven alleged Industrial Workers of the World on murder charges in connection with the 1919 Armistice day shootings, declaring that they believed the defendants innocent, would have little standing in an appellate court if a new trial were sought on that basis, C. D. Cunningham, special prosecutor in the case, declared today. "It is a principle of law as old as the jury system," Mr. Cunningham said, "that jurors cannot be heard to repudiate their own verdict."

INVITES STEEL MANUFACTURERS TO CONFERENCE
President Asks Them to Attend Dinner at White House Tonight

(By The Associated Press)
WASHINGTON, May 17.—President Harding today became known today has invited about 40 of the country's leading steel manufacturers to a dinner at the white house tomorrow night. While official comment was withheld as to the purpose of the gathering the fact that the president previously had given notice of his intention to have 16 or 20 presidents of the larger railroad lines in conference at the white house Saturday night gave grounds for a general understanding that transportation matters would be taken up with the steel manufacturers at the earlier gathering.

It is understood that the matter of transportation rates and the possibility of securing downward revision immediately to an effective extent even if not ordered by the interstate commerce commission will be discussed with railway executives. The steel interests it is said are vitally concerned in rate reduction in view of a semi-administrative proposal to have downward revision accomplished by lowering freight rates of heavy basic commodities before attempting general reductions in rates.

GRAINS CONTINUE TO MAKE NORMAL GAINS
(By The Associated Press)
WASHINGTON, May 17.—Wheat and other fall sown grains continued during the past week to make normal gains according to the crop review issued by the United States Department of Agriculture tonight. It was added that rain is needed in portions of the northeast and in some north central states, especially Iowa and Eastern Nebraska, and the wheat in the far northwest would respond to warmer weather. Germination of spring wheat has been good throughout the belt and the report said the early sown crop is looking good generally. Oats made satisfactory progress although moisture is needed in some Upper Mississippi Valley districts.

Work in the corn fields generally accompanied good results the review said planting being underway "nearly to the northern limits of the belt" and early sowing coming up as far north as the Ohio Valley. Considerable damage to fruit in the west and northwest was noted.

KENTUCKY SEEMS TO BE GETTING BACK TO NORMAL

Feudists Start Gun Battle in Court Room at Pineville

(By The Associated Press)
PINEVILLE, Ky., May 17.—Pineville tonight was still under heavy guard in an effort to prevent possible renewal of the Ball-Colson feud which broke again today in the court house. John Hurst a member of the Colson faction, who was shot in the stomach had little chance for recovery, while Frank Ball, an uncle of Riley Ball, who was killed, may recover, it was said. Clay Colson and Flint McDaniel, who were wounded, are not seriously hurt. Judge J. G. Forester, who was holding court when the shooting occurred, adjourned court at once in an effort to get all partisans of both sides out of the city. A heavy guard was thrown around the county jail where George Colson, charged with killing Ira Ball who had killed his brother, Doyle Colson, was confined. The hospital where the four wounded men were taken also was surrounded by a cordon of peace officers. Warrants were issued this afternoon for Floyd Ball and James Cruikshank charging them with malicious shooting and wounding.

CHILE AND PERU SEEM NEARING AN AGREEMENT
Hope Expressed That Delegates Will Get Together

(By The Associated Press)
WASHINGTON, May 17.—Continued confidence that the Chilean-Peruvian conference will meet successfully its paramount issue involving validity of the Tacna-Arica clause of the treaty of Ancon, was expressed on both sides today after the two delegations again had talked over their differences behind closed doors. Just what occurred at the meeting was kept in close confidence an official communique issued by the two groups of delegates saying merely that the conversations had proceeded amicably and that some progress had resulted. That some important move had taken place was indicated by a succeeding exchange of cablegrams with home governments and by a decision not to meet again until Friday.

Bolivia again brought to public notice her claims of an interest in the negotiations. Adolfo Ballivian, Bolivian minister, declared in a statement that although his country had no seat in the conference it felt that it "had been most injured" by results of the controversy under discussion. The Bolivian legation, the statement said, "is following with interest the negotiations which are ward a satisfactory settlement."

The provisional plan calls for a two story house of Colonial style of architecture, finished with brick. The site is especially attractive and the Griswold family will certainly have a delightful suburban home.

DAIL EIREANN IS STILL DEBATING PEACE AGREEMENT

Adjournment Taken Until Today Without Any Decision

(By The Associated Press)
DUBLIN, May 17.—The Dail Eireann debated tonight the day the break down of the peace negotiations and adjourned until tomorrow without coming to a decision. Even yet there is some hope of accommodation, and the interval will be utilized by the peace makers to bring the leaders together. The special peace committee failed to reach a settlement cause, having agreed to uncontested elections, they could not agree on what proportion each side should have in the way of members. The supporters of the treaty, although they claim a great majority in the country offered to be content with six members out of ten. Those opposed to the treaty wanted the existing proposition in the Dail Eireann to remain unaltered.

There was a further disagreement on the constitution of the coalition cabinet, and more important still on the principals of its operation. Those for the treaty wanted it to assist in the operation of the treaty their opponents admitted they wanted to evade and destroy the treaty. The deadlock seemed complete. Nevertheless Eamonn DeValera repeatedly announced his willingness to join a coalition in the public interest stipulating only that it would not bind him to abandon his principle. Mr. Griffith wanted assurance that DeValera was willing to permit the people to decide. Michael Collins showed more of a disposition to welcome DeValera's olive branch, and that a coalition might be utilized to consolidate the advantages already gained, which would be jeopardized by a conflict.

Liam Mellows who strongly supports the dissident of the Irish Republican army delivered a characteristically uncompromising Republican speech. Debate will be resumed tomorrow.

Anderson received 55 votes and Wiley 55.

(By The Associated Press)

The despatch describes the firing as the most severe that has occurred in months. It was a pitched battle between police and soldiers against Sinn Féin gunmen and lasted for several hours. Machine guns, rifles, revolvers and grenades were used and the noise was heard throughout the city. According to the press association the officials in Belfast report only one man dead and five men wounded.

ALLEGED MURDERER RELEASED ON BOND
Carlinville, Ill., May 17.—Mrs. Mary Segane, of Wilsonville, charged with shooting her husband to death early last Wednesday morning after following him to the home of a neighbor woman, late today was released from the Macoupin county jail on a writ of habeas corpus under bond of \$7,500. The bond was signed by nine men of Wilsonville who have retained attorneys for Mrs. Segane's defense. The decision of Judge Frank W. Burton of the circuit court came after a day of testimony and arguments. Nearly the entire population of Wilsonville was present. Many of them were witnesses for Mrs. Segane. She was in court with her three small children.

THREATS OF DEATH SENT THRU MAILS TO CHICAGO OFFICIALS

Chief of Police Fitzmorris and Warden of Cook County Jail Receive the Notices—Guards Placed About All Buildings Under Construction—Bodyguard for Chief

(By The Associated Press)
CHICAGO, May 17.—Death threats sent to police officials, the announcement that three labor leaders would have to stay in jail, and steps taken to place armed guards about every building under construction in Chicago, were today's developments in the police war on labor terrorists. The placing of guards with orders to shoot to kill about building projects followed in the wake of a fire started by bombers last night as the latest act of violence in a campaign against the Landis wage award.

"Big Tim" Murphy, Fred Mader, president of the Building Trades Council, and "Con" Shea were checked at the outset of a supposed move for freedom today when Chief Justice Scanlan of criminal court rejected a defense motion for assignment and immediate hearing of their trial on charges of having slain a patrolman.

The death threats were received by Chief of Police Fitzmorris and Captain Wesley Westbrook, warden of the Cook county jail. The chief received his in the mail at his home where a uniformed policeman is now on duty, day and night, while a second officer has been appointed as his personal bodyguard.

The threat to Warden Westbrook came to the county jail where an extra police detail is on guard in anticipation of a possible attempt to rescue the labor leaders held there. In a speech today Captain Westbrook said that "the respectable element in the labor unions of Chicago must repudiate their criminal leaders or lose the support of those who are in favor of the union cause."

The warden did not place the full blame on the unions. He declared that the fostering of special privilege in courts and in the minds of the public has eaten into the moral consciousness of the city and in a large measure permitted crime to go unpunished. Declaring he had received threats to burn Chicago, Chief Fitzmorris announced that he would put one or more watchmen on each building under construction.

"In the hands of each guard we will put a shotgun or a rifle and a commission that will give him the authority to shoot to kill at the first sign of invasion of the property under his guardianship," he said. "It is time to take the most drastic of measures to prevent a repetition of the \$100,000 fire of last night."

State's Attorney Crowe announced tonight after a conference with Chief Fitzmorris that four more indictments would be returned later in the week in connection with the slaying of two patrolmen by bombers last week.

Committee Will Continue Hearings
(By The Associated Press)
WASHINGTON, May 17.—The committee of the shipping board conducting hearings on section 23 of the merchant marine act which prohibits the making of preferential rates with foreign lines while American tonnage is available will sit in St. Louis tomorrow. Commissioner Frederick I. Thomson, chairman.

"Foreign shipping interests will be stopped from protesting against application of section 23 of the merchant marine act without defining for record the identity of such protesters," Chairman Thomson said. "The committee will insist upon knowing the identity, if any, of protesters may have with foreign shipping interests. The voice of the American shipper and ship operator and not any voice that may reflect the view of those whose private interests are best served by restriction from operation of a preferential feature of our marine law. No weight will be given by the committee to views that originate from sources known to be hostile, openly or covertly to the merchant marine expansion of the United States."

After the St. Louis hearing the committee will hold a hearing at Chicago for the Great Lakes division.

CARROLLTON, Mo., May 17.—S. A. Clark today announced his candidacy for the Republican nomination for the office of United States senator. Mr. Clark said he would open his campaign at Lexington Friday night.

IS ACCUSED OF VIOLATING LAW
(By The Associated Press)
CHICAGO, May 17.—Charges of conspiring to violate the prohibition law were lodged against William H. Suchler, wealthy realtor, by prohibition enforcement agents today after they had found part of 1,500 cases of stolen whiskey in a safe in which Suchler is said by the prohibition agents to have an interest. The whiskey was stolen from the Flexner Distillery company several days ago after Suchler was kidnapped and thrown from an automobile so forcibly that one of his legs was broken after the kidnappers had taken his keys, according to his story to the police. According to prohibition agents, much of the liquor was removed at night before Suchler was kidnapped and his keys taken. Seven employees of the safe were arrested prohibition agents said, after they were able to purchase liquor there.

HEAD OF ILLINOIS MEDICAL SOCIETY PANS THE QUACKS

Say no Other Country Permits Liberties as This Country Does

(By The Associated Press)
CHICAGO, May 17.—Dr. Charles E. Humiston of Chicago president of the Illinois State Medical Society today attacked what he termed the medical parasite and which he said included the quack and charlatan who capitalize the misfortunes of others. Dr. Humiston also included in his criticism, made in an address before the annual convention, the clairvoyants and "followers of various cults."

"No other civilized nation," he asserted, "gives legal sanction to the exploitation of the sick. Public safety demands that before any treatment for bodily ailment be administered a diagnosis must first be made by a competent physician endowed with the scientific knowledge of disease which we now possess. The laws of various states permit more than 20 varieties of medical parasites to prey on the unfortunates and most of these alleged practitioners are without adequate education."

Regardless of methods used, Dr. Humiston said all persons who desire to treat the sick should be required to comply with a minimum educational standard. The medical profession, he said, welcomes new methods if it possesses value. Dr. Charles E. Mongom of Somerville, Mass., denied that the United States ranked seventeenth among the civilized nations in maternal death rate.

GYPSY PASSION

Lady Astor is being "wined and dined" and evidently hugely enjoys the opportunity for much public speaking. Probably some of her eccentricities of sentiment and language are the result of an unsated appetite for notoriety. Somehow we much prefer the quieter and more dignified method of our own Congressman, Alice Robertson.

An organization of coal men issued a warning that the visible supply is about exhausted and that no coal worth mentioning will be available after July 1. The same day Secretary Hoover authorized statement at Washington that prices being charged for coal by some operators are too high and that there is no danger of an acute shortage at an early date. The figures were given to indicate that the supply of coal in storage, taken together with that being produced by non-union mines, will take care of the normal demand for the next two or three months.

You can take your choice of these estimates without the payment of money.

The automobile trade is a fair index of the state of prosperity. Increased sales of motor cars prove that the buying power of the people is increasing. A manufacturer of a well known expensive car says his production this year will be 25 per cent above that of any previous year. Another concern sold more cars in April than in any other month in its history. Still another maker of moderate priced cars says that April was the biggest month in 14 years, and two others say they will have done more business by June than during all of 1921.

THE EXAMPLE OF H. P. DAVISON.

"Looking for work," was the announcement with which Henry P. Davison entered New York City at the age of 19, remarks the Republican Publicity Association. The Republican organization then says: "The announcement met no satisfactory response in that center of American industry and finance, leaving Davison with a choice between two courses of action—he could either get a soap box and go out on the street corner and denounce the selfishness and venality of Wall Street or he could go on looking for a job. He chose the latter and found work as a bank messenger in Bridgeport, Conn. From the time he first went to New York, in 1886, Davison was looking for work until the day of his fatal illness. He was always able to find it and he always did the work so well that he had more and more offered to him to do."

"The record of Mr. Davison affords a lesson for all American youth. Davison was honest, but integrity alone will not win success. He was ambitious, but ambition alone will not lead to achievement."

He began at the bottom of the banking business and by demonstrating his ability and willingness and dependability advanced from one position to another until the city which refused his services in any capacity in 1886 was glad to accept his counsel on any subject of finance before he had passed his fiftieth year.

The one lesson of every man's success is that integrity and ability there must be added industry and thrift—expenditure of energy and economy of time—if one hopes to attain unusual heights in this busy world."

No need to worry about battery troubles. See the A. H. Barth Electric Co., corner of Court and East streets. Phone 1725.

BEARDSTOWN IS GRATEFUL

Another letter has been received by the members of the Jacksonville Flood Relief committee from Beardstown thanking Jacksonville for her services and generosity during the flood period. The letter is printed below, as it is of interest to every one who contributed to the aid of the flood sufferers at the river city: Beardstown, Illinois, May 15, 1922.

Mr. Louis Frank, Chairman Flood Relief Comm., Care Chamber of Commerce, Jacksonville, Illinois.

Dear Sir: Late Saturday another remittance came from Jacksonville, \$1750.00, and at the citizens meeting this morning, Jacksonville was given loud applause again.

Jacksonville are certainly doing more than their share in the relief work at Beardstown, and we can only repeat what we have said several times. You do not know how much good you have done, nor how it is appreciated.

The committee takes this opportunity to express the thanks and gratitude of the Beardstown Citizens to each and every individual who contributed to this fund.

Again thanking you very much, we are,
Yours truly,
F. J. Kuhl, Chairman.
E. E. Schultz, Secretary.

Pimples Keep Young Men Down!

They Make Women, Too, a Puzzle How S. S. S. Stops Skin Eruptions Positively.

Pimples and skin eruptions have a price—you pay for every pustule, black-head and pimple on your face. Pimples produce prejudice and prevent prosperity. Your heart may be gold, but who wants to kiss eruptions? Pimples mean don't look like the owners of anything. Pimples women, too, are puzzles, with no prospects and no power. Young men and women, here's the positive way out. Physics and purgatives will fail. What you need is a scientific blood-cleanser. S. S. S. is one of the most powerful destroyers of blood impurities. You can prove this in a short time. S. S. S. has been passed on by a jury of millions of people just like yourself. It is considered one of the most powerful vegetable blood-purifiers and flesh-builders in existence. That's why you hear of so many underweight people putting on lost flesh in a hurry, why you hear of so many rheumatics being freed from their scourge, with S. S. S. Start today with S. S. S. and see your face clear and your skin get ruddier, your flesh firmer. It will give you a boost in your career. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

MOTHERS PROTEST DAYLIGHT SAVINGS

MUSKOGEE, Mich.—Over the protests of mothers in the city, Muskogee has adopted by will of the voters, daylight saving time for the spring and summer months.

The mothers fought the proposal to set the clocks ahead one hour on the ground it would disrupt the feeding schedules for their infants and therefore endanger the health of the youngsters.

During the campaign that preceded the special election at which the issue was decided the mothers fought countless word battles against it. The majority of voters, however, turned a deaf ear to their entreaties. The mothers' campaign slogan of "save the babies by voting down daylight saving time" fell on empty ears, the proposal to change time carrying by an overwhelming majority.

ted in the book about which you were questioned, and the sheet which was identified was created by transferring from the account of Secretary of State, certain moneys collected by him to the account of the state treasurer, wasn't it?" asked Mr. LeFurgee. "It was not," Leuhars replied. "How was it created?"

"It was in existence at the close of Mr. Small's term and was transferred to Mr. Sterling's term." "And for the various items that represent the certificates how was that credited?"

"Usually by checks on Dunlap, Russell & Co., deposited by the secretary of state for his quarterly settlements."

"When were these certificates of deposit issued?"

"I am unable to say from memory."

"That is to say, the secretary of state drew a check upon the account of Dunlap, Russell & Co. for a sum of money payable to the treasury and the state treasurer deposited that to his credit with Dunlap, Russell & Co?"

"These checks were deposited either in the open account of Dunlap, Russell & Co. or credited to the vault fund."

"And when deposited in the account of Dunlap, Russell & Co., were they used as the checking account for the state treasurer's expenses and the appropriations?"

"Yes sir."

Assistant Attorney General Wilkerson then took the witness for further re-direct examination.

"Now isn't it a fact, Mr. Leuhars that during the administration of Mr. Sterling, the account of Dunlap, Russell & Co. in the vault account remained stationary at \$3,000,000?" he asked.

"I cannot say," Leuhars replied. "Will you look at these books you brought here and answer that question?"

"Yes sir, I will," said Leuhars with a show of irritation. "I want an explanation of your answer about this money from the secretary of state and so on." Mr. Wilkerson said. "I want to call your attention to the fact so you may have it in mind when you make the statement. I think you may look at the book for that purpose."

"The question is," asked Judge Edwards, "whether or not this account did not remain stationary?"

"Yes, during Sterling's administration," replied Mr. Wilkerson. "At \$3,000,000?" asked the judge again.

"Yes sir," replied Leuhars when permitted to answer.

Questioned early in the day about interest earnings, Leuhars declared that it was his recollection that the Fort Dearborn National Bank of Chicago had paid 2 percent interest on state funds deposited with it. Earlier testimony disclosed that the prevailing rate of interest which the state received on most deposits was 2 percent. Only a few seats in the court room were occupied by spectators. Governor Small occupied his usual seat with his counsel and continued to take notes. He told newspapermen it was necessary to refresh his memory about affairs in connection with his regime in the state treasurer's office.

"You know I have been thru a campaign and a few other things since," he said.

COULD HARDLY STAND AT TIMES

Hips, Back and Legs would Have That Tired Ache

Everett, Washington.—"For several years I have had trouble with the lowest part of my back and my hips and my legs would ache with that tired ache. I could hardly stand on my feet at times. I was always able to do my work although I did not feel good. I saw Lydia E. Pinkham's Vegetable Compound and having heard several praise it I decided to try it. I feel first-rate at the present time. It has done wonders for me and I keep it in the house right along. I always recommend it to others who are sick and ailing."—Mrs. J. M. Sumner, 4292 High St., Everett, Washington.

To do any kind of work, or to play for that matter, is next to impossible if you are suffering from some form of female trouble. It may cause your back or your legs to ache, it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good.

Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is especially adapted to relieve the cause of the trouble and then these annoying pains, aches and "no good" feelings disappear.

Organization Perfected For Our Saviors Hospital Campaign

Further details for the campaign for funds for Our Saviors hospital were discussed at a meeting of the executive committee held at the chamber of commerce rooms Wednesday afternoon at 4 o'clock. W. T. Harmon presided and there was a general discussion of various matters to the campaign.

At the conclusion of the conference the members of the committee made a trip of inspection thru the hospital addition. To those who had not some previous knowledge of the building the inspection was a revelation, for they had not thoroughly understood the size of the undertaking. At the conference details were worked out for a thorough canvass for funds, which is to begin Monday morning, after the workers have held a general meeting at the chamber of commerce rooms.

As already mentioned, the \$27,000 that the Sisters of the Holy Cross have saved because the nucleus for the building fund. The Sisters were able to secure a loan which made it possible to proceed with the building, and they have faith that friends of the hospital will rally to its support and supply to money absolutely necessary before the building can be furnished and put into active operation.

The addition will include the most modern in hospital equipment and will more than double the capacity for patients. LITERBERRY

Rev. Ben Johnson preached a Mother Day sermon at the Baptist church on Sunday morning; text, Exodus 2-7, Paying a Tribute to the Mother of Moses. Mr. Johnson preached a splendid sermon, sang a solo for the boy's class and gave a few minutes to the observing of the first Mother's Day and how it originated, with due respect to Miss Anna Jarvis.

The evening sermon was to the young people and at the invitation for the start in Christian life there were four conversions and four joined the church.

Mrs. R. B. Favorlight of Jerseyville, Ill. was at the Baptist church Saturday afternoon and night. She gave fine talks at each meeting.

Valuable information for teachers, Sunday school superintendents and parents. Mrs. Favorlight is State Director of Children's Division; her work is director of Sunday School and B. Y. P. U. for this state.

Rev. L. H. Koechler of Normal was with the Baptist people here on this occasion too and gave a lecture on Saturday night, which was splendid, both educationally and religiously. Rev. Koechler is Director of Educational Division in the Baptist church.

Rev. Johnson's wife and daughter with him and the people of Literberry were glad to meet their pastor's family.

BABE RUTH MUST ASK FOR REINSTATEMENT

CHICAGO, May 17.—Babe Ruth, home run king of the New York Yankees, will not be automatically reinstated on May 20, when his team suspension from the New York Club expires, but may apply for reinstatement to K. M. Landis, baseball commissioner at that time, Leslie O'Connor, Judge Landis' secretary said today.

Ruth, who was suspended until May 20 with Bob Meusel, New York outfielder and Bill Pearcey, pitcher, after the three had gone on a barnstorming tour last fall, will not be compelled to appear in person before Commissioner Landis to make his request for reinstatement, Mr. O'Connor said.

The suspension order, Mr. O'Connor said, prohibited Ruth and the two others from participating in league games until May 20 at which time they were given the

privilege of asking reinstatement. Such a request, Mr. O'Connor said, might be made by letter, telegraph, telephone or in person and would be taken under consideration by Commissioner Landis.

Cochran Gives Scare To Young Schaeffer

CHICAGO, May 17.—"Young Jake" Schaeffer, world's 18.2 ball line billiard champion, tonight defeated Welker Cochran, 500 to 498 in the second block of their 1,500 point championship match. Schaeffer leads the challenger 1,000 to 919. The final block will be played tomorrow night.

Schaeffer went out in the fourteenth inning of tonight's play, with an unfinished run of four. Neither man seemed able to amass a larger count early as they both kept the balls well apart at every miss. Cochran got them together toward the end and gathered a high run of 159.

Score of tonight's play: Schaeffer, 500; Cochran, 498.

Average for the night: Schaeffer, 35 10-14; Cochran, 35 8-14. Average for both nights: Schaeffer, 34 14-29; Cochran, 31 20-29.

High run for night: Schaeffer 81; Cochran, 159.

When play was resumed tonight, Schaeffer started on his unfinished run of 85 where he left off last night. He kept the balls closely grouped near the end rail and made 18 before missing a draw shot.

Cochran ran four and tripped up on an easy carom. Jake missed a difficult draw and Cochran in his second frame ran 41 and missed on a draw shot when he attempted to gather the balls on a round table drive. He had just completed a beautiful masse on his 40th shot.

Schaeffer ran ten in his third inning, missing on a rather easy draw shot in an attempt to gather the balls. He left them in a difficult position and Cochran missed.

Schaeffer then gathered the balls together nicely, but miscued on his 34th shot. He made 59 to Cochran's 45 thus far, and the score of the match at the end of the 18th inning stood, Cochran, 466; Schaeffer, 559.

Cochran got 60 in his fourth inning, bringing applause for a pretty cushion-first shot on his 59th but missing his 61st on a draw cushion shot.

The champion settled down in his half and ran 79, bringing applause on the 79th shot, a cross table drive. He had to scatter the balls in doing it and missed his next shot.

He left the balls scattered and Cochran missed. Schaeffer then ran two but the balls were still wide apart and he missed a four cushion try.

Cochran tried a three cushion natural but fell shy by an inch.

Schaeffer ran five, all open shots, and Cochran ran one and missed.

After taking 15 shots before gathering the balls, Schaeffer ran 76 in the seventh by careful nursing and accurate driving. He tripped up on a one cushion carom trying for his 77th.

Cochran put the balls in good order early and clicked off 75 before missing on a rather easy draw.

Schaeffer ran 48 in his half of the eighth inning of the night, missing a short two cushion shot. Cochran found the balls wide apart and after gathering them ran 28, missing on a slow draw on the rail.

Schaeffer then made 81, the high run thus far tonight and brought the score at the end of the ninth inning of the night, 24th inning of the match up to, Schaeffer, 850; Cochran, 630.

The champion missed on a drive to the rail and bank to cushion shot trying for his 82nd shot.

Cochran ran 40 in his 25th and missed on a hard masse, leaving the balls grouped for Schaeffer on the rail, but the champion after running 17, encountered a line up and missed his three cushion attempt.

Cochran gathered 32 on his 26th inning and tripped up on a draw on the side rail.

Schaeffer reeled off 62 before missing a hard four cushion shot. The score at the end of the 26th inning, Schaeffer, 929; Cochran, 702.

Cochran missed an open table two cushion drive and the balls rolled in position for the champion who nursed them delicately and clicked off 58 in a few minutes leaving him but 13 to go.

Schaeffer left the balls wide apart and Cochran was applauded when he made the shot, taking three cushions to do it. He then ran 58 before missing a cushion first shot and the champion ran only nine, leaving him four to go on the block.

Cochran gathered the balls together quickly and by delicate nursing and accurate placing on returns from cushions soon reeled off 100. He missed a cushion first shot after making 159. The champion ran out by making four.

The score of the second block by innings follows:
Cochran: 4-41-0-60-0-0-1-75-28-40-32-0-58-159-498-519.
Schaeffer: 16-0-10-33-79-25-76-48-51-17-62-58-9-4-500-1000.

SAW DERBY RACES.

Thomas Welsh was returned from Louisville, Ky., where he attended the great Derby race. He says the race was really wonderful. When the great event came off, the Derby that Morvich won, the excitement was intense though the beautiful animal was never for a moment in danger. His rider didn't even use the whip at all, but toward the end of the race he leaned forward on the colt's neck and the animal spurred ahead of the rest and won amid tremendous cheers, tho of course, Kentucky people were not pleased to see an outside horse win the event. Hundreds of thousands changed hands on the race.

WILL PERMIT USE OF STEEL SHAFT CLUBS

CHICAGO, May 17.—The executive committee of the Western Golf association today announced that its investigations and tests showed that steel shafted golf clubs afforded no mechanical advantage to players and that their use would be permitted in all tournaments held by the association. The United States Golf association recently barred the clubs but it is understood that this decision will be reconsidered.

The committee in a statement making public the decision said that the clubs submitted to it for tests had some markings and grooves on them, and explained that its approval concerned the shafts only and not any special markings.

The final test of the clubs was made yesterday in the presence of the committee by Bob McDonald and Allen Gow, local professionals and Chick Evans. Gow and McDonald both got better distance with their wooden shafted clubs than with the sample steel shafted ones.

MRS. ZELLA COX IS NOW WIFE OF F. L. LEACH

Marriage of Well Known Local People Solemnized in St. Louis

A news bureau dispatch from St. Louis yesterday announced the issuance of a marriage license there to Frank L. Leach and Mrs. Zella Cox of this city. The marriage was no doubt solemnized in St. Louis, but the Jacksonville friends of the contracting parties have not received particulars. The engagement of Mrs. Cox and Mr. Leach had been known to their friends for a number of months past, but their marriage plans were kept a secret.

Mrs. Cox before her marriage was Miss Zella Savage, and is a member of a well known Cass county family. She is held in highest esteem wherever known. While resident in Jacksonville she has been actively associated with the work of Central Christian church. Mr. Leach, who is assistant cashier and a director of the Farmers State Bank & Trust Co., is a son of the late John Leach, prominent farmer and land owner. He now has a recognized place among the prominent business men of Jacksonville.

The newlyweds will have the hearty good wishes of a very large circle of friends.

OLD DEED SUGGESTS OBSOLETE CUSTOM

Shows Sale of Pew in the First Presbyterian Church of Jacksonville in 1848.

Another interesting old document which has just come to notice is the record of transfer of ownership of a pew in the old First Presbyterian church of Jacksonville. This document, which was drawn in July, 1848, shows that for the sum of \$105 the trustees of the Jacksonville Presbyterian church have sold pew No. 21 in the church. The name of the person to whom the transfer was made was blurred, but the other signatures are clear. David B. Ayers, was the president of the board of trustees and W. Catlin was the clerk.

Before the deed was recorded the signatures were witnessed by Samuel D. Lockwood.

This old deed is now in the possession of "Red" Tyrell, who has a special liking for antiques. The language of the document calls to mind a custom of church support that has long been obsolete here in Jacksonville. This is the way the deed reads:

For and in consideration of the sum by her paid to the Trustees of the Jacksonville Presbyterian church, they hereby bargain, sell and affirm to ——— to have and to hold her heirs and assigns forever the following pew, in a House of Worship erected by the said trustees in this town, on lots Nos. 103, 104 and 105, reference being had to the original plat of the same for the following price, to-wit: No. 21, for One Hundred and Five Dollars, said pew to be used only for the worship of God or for such other purpose or purposes as may be allowed by said trustees or their successors in office.

There will be other speakers of prominence on the two days' program and the convention promises to be one of the most profitable and interesting held.

COLLEGE AVENUE HEARING CONTINUED

A further chapter in the hearing of the West College avenue pavement was recorded yesterday with Judge A. E. Martin of Cass county presiding. A number of property owners were represented by Attorneys Wilson and Brockhouse and the city's interests were presented by Attorneys Bellatti and Moriarty.

One of the contentions of the objectors was that there had been errors made in the levels run for the proposed improvement and that the statement was made that if the pavement was constructed in strict accordance with the specifications that it would be out of line with the proper elevations of the street. It will be necessary for the engineering department of the city to present some additional data on this question. The hearing was adjourned until next Wednesday.

Wallace Hemmrough of the Asbury neighborhood made a business trip to the city Wednesday.

H. A. Mansfield from Frankfort came up to the city on business yesterday.
